Mag. and the last two lines of the paragraph on page 124 of the Queensland Sailing Directions should be altered to read :—“bearings of S. 40 E. and N. 78 E., that is between the Timandra Bank buoy and the black buoy moored at the point of the banks extending north-west from Sea Hill.” This altered bearing enables the position of the buoy to be located at night. Directions remain unaltered.
2. The first pair of leads above Thompson's Point, and which lead past that point will be abolished, and a green light will be established on the extreme of Thompson's Point. The directions on page 130 of the Queensland Sailing Directions, commencing at the ninth line, are to be amended to read :—“to Thompson's Point (green light), which is to be rounded about 200 feet off. Follow the bank at about this distance off passing a black buoy on the port hand until abreast of a square white beacon (green light) on the north shore.”

Steam Vessels of any draft entering Bombay Harbour, either by day or night, should experience no difficulties, the Bombay Floating light vessel moored in the fairway (Lat. $18^{\circ} 50' N.$, long. $72^{\circ} 44' E.$) should always be made, then a course steered to pass Prongs Reef Buoy at a distance of not less than one mile, then the course should be altered direct for the Steam Pilot Vessel, which will be found on a line with Malabar Point in transit with Colaba Point. During the S.-W. Monsoon, when the weather may be such as to make it difficult for the Mariner to distinguish the more conspicuous marks, also during the cold weather months, when thick smoke haze often lies over the city and surrounding country, the best time to make the Port is an hour before sunrise, the lights then being visible will enable the Mariner to obtain an accurate position. The Bombay Floating Light Vessel is fitted with a submarine bell, also both Prongs Reef and Thull Shoal are marked by Gas buoys.

2. Pilotage is compulsory, no vessel is allowed to proceed north of Sunk Rock; H. M. and R. I. M. Ships and other Government Vessels being exempted. Depth.— $1\frac{1}{2}$ Fathoms (S.M.Crl.).

(b) *Position approximate.*—At a distance of about 9 miles 069° from Al Bida Fort, Lat. $25^{\circ} 20\frac{1}{4}' N.$, long. $51^{\circ} 41' E.$

Details.—A depth of $2\frac{1}{4}$ fathoms at M.L.O. has been found in the above position and it would appear that the $1\frac{1}{2}$ fathoms shoal charted may be extending northward.

Remarks.—The soundings obtained on entering and leaving the harbour revealed that the depths in the approach have altered and shoaled in places to the extent of $\frac{1}{4}$ to $\frac{1}{2}$ fathoms.

The greatest depth that can be carried at L.W., is $2\frac{1}{4}$ fathoms instead of $2\frac{1}{2}$ fathoms, as might be expected from the soundings on the chart No. 2837b, and that the $2\frac{1}{2}$ fathoms depth charted on the same chart should be altered to $2\frac{1}{4}$ fathoms.

The south reef is clearly to be distinguished, but the north reef is difficult to define.

"Cyclamen" thence steered 065° with Sheikh's House astern. This house which has a flagstaff near it is the most conspicuous in the town. The least depth on this course is $2\frac{1}{4}$ fathoms at M.L.W.S.

No. 147 (second publication).—The following particulars, etc., relative to the above, issued by the Director of the Royal Indian Marine, Bombay, in Notice to Mariners (No. 66M. of 1921), are republished:—

(1) (a) *Position (approximate).*—At a distance of about $8\frac{1}{2}$ miles 061° from Al Bida Fort Lat. $25^{\circ} 21\frac{1}{2}' N.$, long. $51^{\circ} 40' E.$

Depth.— $1\frac{1}{2}$ Fathoms (S.M.Crl.).

(b) *Position approximate.*—At a distance of about 9 miles 069° from Al Bida Fort. Lat. $25^{\circ} 20\frac{1}{2}' N.$, long. $51^{\circ} 41' E.$

Details.—A depth of $2\frac{1}{4}$ fathoms at M.L.O. has been found in the above position and it would appear that the $1\frac{1}{2}$ fathoms shoal charted may be extending northward.

Remarks.—The soundings obtained on entering and leaving the harbour revealed that the depths in the approach have altered and shoaled in places to the extent of $\frac{1}{4}$ to $\frac{1}{2}$ fathoms.

The greatest depth that can be carried at L.W., is $2\frac{1}{4}$ fathoms instead of $2\frac{1}{2}$ fathoms, as might be expected from the plan of the chart No. 2837b, and that the $2\frac{1}{2}$ fathoms contour on the same chart should be altered to $2\frac{1}{4}$ fathoms.

(2) *Beacon being erected.*

Details.—A circular masonry beacon is in the process of construction on the north end of the south reef in the above position.

At present the beacon only uncovers about one foot at H.W.

Remarks.—"Cyclamen" passed through the narrows about $1\frac{1}{2}$ cables north of this beacon, obtaining 4 to $4\frac{1}{2}$ fathoms as charted.

The south reef is clearly to be distinguished, but the north reef is difficult to define.

"Cyclamen" thence steered 065° with Sheikh's House astern. This house which has a flagstaff near it is the most conspicuous in the town. The least depth on this course is $2\frac{1}{2}$ fathoms at M.L.W.S.

GEORGE R. I.

Instructions to the Governor of the Presidency of Bengal.

WHEREAS by the Government of India Act provision has been made for the gradual development of self-governing institutions in British India with a view to the progressive realisation of responsible government in that country as an integral part of Our Empire, and whereas it is Our will and pleasure that in the execution of the office of Governor in and over the Presidency of Bengal you shall further the purposes of the said Act to the end that the institutions and methods of Government therein provided shall be laid upon the best and surest foundations, that the people of the said Presidency shall acquire such habits of political action and respect, such conventions as will best and soonest fit them for self-government, and that Our authority and the authority of Our Governor-General in Council shall be duly maintained.

Now, therefore, We do hereby direct and enjoin you and declare Our will and pleasure to be as follows:—

1. You shall do all that lies in your power to maintain standards of good administration, to encourage religious toleration, co-operation, and goodwill among all classes and creeds, to ensure the probity of public finance and the solvency of the Presidency and to promote all measures making for the moral, social and industrial welfare of the people and tending to fit all classes of the population without distinction to take their due share in the public life and government of the country.

2. You shall bear in mind that it is necessary and expedient that those now and hereafter to be enfranchised shall appreciate the duties, responsibilities and advantages which spring from the privilege of enfranchisement, that is to say, that those who exercise the power heretofore entrusted to them of returning representatives to the Legislative Council being enabled to perceive the effects of their choice of a representative and that those who are returned to the Council being enabled to perceive the effects of their votes given therein shall come to look for the redress of their grievances and the improvement of their condition to the working of representative institutions.

3. In as much as certain matters have been reserved for the administration according to law of the Governor in Council in respect of which the authority of Our Governor-General in Council shall remain unimpaired while certain other matters have been transferred to the administration of the Governor acting with a Minister, it will be for you so to regulate the business of the Government of the Presidency, that so far as may be possible, the responsibility for each of these respective classes of matters may be kept clear and distinct.

4. Nevertheless you shall encourage the habit of joint deliberation between yourself, your Councillors and your Ministers in order that the experience of your official advisers may be at the disposal of your Ministers and that the knowledge of your Ministers as to the wishes of the people may be at the disposal of your Councillors.

5. You shall assist Ministers by all the means in your power in the administration of the transferred subjects and advise them in regard to their relations with the Legislative Council.

6. In considering a Minister's advice and deciding whether or not there is sufficient cause in any case to dissent from his opinion you shall have due regard to his relations with the Legislative Council and to the wishes of the people of the Presidency as expressed by their representatives therein.

7. But in addition to the general responsibilities with which you are, whether by statute or under this instrument, charged, We do further hereby specially require and charge you—

(1) to see that whatsoever measures are in your opinion necessary for maintaining safety and tranquillity in all parts of your Presidency, and for preventing occasions of religious or racial conflict are duly taken and that all orders issued by Our Secretary of State, or by Our Governor-General in Council on Our behalf, to whatever matters relating, are duly complied with ;

(2) to take care that due provision shall be made for the advancement and social welfare of those classes amongst the people committed to your charge who, whether on account of the smallness of their number, or their lack of educational or material advantages, or from any other cause specially rely upon Our protection and cannot as yet fully rely for their welfare upon joint political action, and that such classes shall not suffer or have cause to fear neglect or oppression ;

(3) to see that no order of your Government and no act of your Legislative Council shall be so framed that any of the diverse interests of, or arising from, race, religion, education, social condition, wealth or any other circumstance may receive unfair advantage, or may unfairly be deprived of privileges or advantages which they have heretofore enjoyed, or be excluded from the enjoyment of benefits which may hereafter be conferred on the people at large ;

(4) to safeguard all members of Our services employed in the said Presidency in the legitimate exercise of their functions, and in the enjoyment of all recognised rights and privileges, and to see that your Government order all things justly and reasonably in their regard, and that due obedience is paid to all just and reasonable orders and diligence shown in their execution ;

(5) to take care that while the people inhabiting the said Presidency shall enjoy all facilities for the development of commercial and industrial undertakings no monopoly or special privilege, which is against the common interest, shall be established and no unfair discrimination shall be made in matters affecting commercial or industrial interests.

8. And We do hereby charge you to communicate these Our Instructions to the members of your Executive Council and your Ministers and to publish the same in your Presidency in such manner as you may think fit.
